Headteacher - Mrs. H Wadsworth

Dear Parents and Carers,

As you will know, a Red Extreme Heat Warning has been issued for Wednesday and Thursday. Currently our plan is to remain open. We are putting extra measures in place to keep everyone safe.

In school we will:

- Encourage children to drink water regularly
- Keep to shaded/cooler indoor spaces where possible
- Shorten time outdoors
- Avoid strenuous activities like PE
- Adapt or postpone events if needed

Please send your child with a water bottle, hat and in light, cool clothing, with sun cream applied.

Although it is our aim and wish to remain open, it is possible that we will be advised that school will be closed entirely or open only for the mornings. If this is the case, we will let you know as soon as possible. Please make sure that you are checking normal school communication methods used by school.

We are in regular communication with our cluster schools, the LA and Welsh Government and are monitoring the situation closely.

Thank you for your support.

Kind regards,

Caldicot Cluster Primary Schools
